2021 Cornell Undergraduate Experience Survey

The Cornell Undergraduate Experience (CUE) Survey asks currently enrolled undergraduate students about their involvement in various academic and extracurricular activities, their interactions with faculty and students, and their perceptions of their undergraduate experience.

The 2021 CUE Survey was administered via email invitation in April-May 2021. Of the 10,510 students invited to complete the survey, a total of 4,208 students responded, yielding a 40% response rate.

The results of the 2021 CUE Survey are displayed in the tables that follow. It may be most useful to refer to the survey instrument first in order to locate questions of interest. Survey responses for Cornell are broken out by students' class, gender identity, race/ethnicity, and undergraduate college. For any questions about the tables or the CUE Survey more broadly, please contact irpsurvey@cornell.edu.

Overall, how satisfied have you been with your undergraduate education so far?
