Cornell University
Division of Planning and Budget

2022 Senior Survey

The 2022 Senior Survey asked members of the class of 2022 about their satisfaction with various aspects of their undergraduate experience, changes in their abilities and knowledge, involvement in academic and extracurricular activities, and their educational and employment plans.

The survey was administered via the web in spring 2022. Of the 3,713 seniors invited to complete the survey, a total of 1,391 students responded, yielding a 37% response rate.

The results of the 2022 Senior Survey are displayed in the tables that follow. It may be most useful to refer to the survey instrument first in order to locate questions of interest. On the first line of each table, the responses for the applicable survey question are presented for Cornell University as a whole. Frequencies are also presented by gender identity, race/ethnicity and citizenship, sexual orientation, and undergraduate college.

Please contact irpsurvey@cornell.edu with any questions you might have about the Senior Survey.
