2021 New Student Survey

The Cornell New Student Survey asks incoming first-year students about their high school activities; personal goals and abilities; and expectations of their college experience.

The web-based survey was conducted in August 2021. All first-time, full-time first-year students at Cornell were invited to respond to the survey. A total of 1,773 first-year students participated in the 2021 New Student Survey, yielding a response rate of 47%.

The results of the 2021 New Student Survey are displayed in the tables that follow. It may be most useful to refer to the survey instrument first in order to locate questions of interest.

Survey responses for Cornell are broken out by students' class, gender identity, race/ethnicity, and undergraduate college. For any questions about the tables or the NSS Survey more broadly, please contact irpsurvey@cornell.edu.

How important is it that Cornell provides you with the following?

Row percentages within...		A broad liberal arts education				Total Count
